## **Rubber to Metal Parts Strong Points**

Maintenance Free/Re-Greasing Free for whole warranty period, 2 years

100% accurate dimensions of OE, which enables easy installation on the vehicle.

100% crack control of housings, ball pins and bar

Premium ball pin bearing design to have better torque values and double life-time

Unique anti-corrosion technology in the painting process

## **Draglink and Tie Rod Strong Points**

Maintenance Free/Re-Greasing Free for whole warranty period, 2 years

100% accurate dimensions of OE, which enables easy installation on the vehicle.

100% crack control of housings, ball pins and tube

Premium ball pin bearing design to have better torque values and double life-time

Unique anti-corrosion technology in the painting process

## **Tie Rod End Strong Points**

KGA Premium Design providing unique torque and brake away torque values

Maintenance Free/Re-Greasing Free for whole warranty period, 2 years

Induction hardened housing and ball pin

High quality automotive grade grease, durable up to "-58 to +176 Fahrenheit degrees

Equally and Homogenically distributed amount of grease under the dust cover and around of the ball pin

High-tech dust covers resistant to "-58 to +176 Fahrenheit degrees

Premium ball pin bearing design to have better torque values and double life-time

### **Torque Rods Strong Points**

Friction welding instead of regular circular welding.  
At least 3,4 times stronger welding.

Unique anti-corrosion painting

Reinforced the head of torque rods

Capsulated bushing prevents bush pop-out

### **Torque Rods Strong Points**

Friction welding instead of regular circular welding.  
At least 3,4 times stronger welding.

Unique anti-corrosion painting

Reinforced the head of torque rods

Capsulated bushing prevents bush pop-out

### **Rubber to Metal Parts Strong Points**

1.7 times longer service life compared to competitors.

Special Rubber Storage to keep Rubber Freshness at maximum level

High corrosion resistance (special zinc+phosphate chemical coating)

Calibration of inner and outer diameters of 100% of silent blocks and bushings to ensure 100% fit
